

## RAILROAD HEADS FRAMING REPLY

Committee in Almost Continuous Session Without Solving Problem

## CALL ON PRESIDENT

Three Committeemen "Discuss General Situation" With Wilson for an Hour

## EMPLOYEES HEAR MARSHALL

WASHINGTON, Aug. 22.—Eight presidents of important railway systems who have been designated to draft the railroad's reply to President Wilson's appeal that they accept his plan for averting a nation wide strike, were in almost continuous session today and tonight without solving their problem.

Late tonight three of the committeemen, Hale Holden of the Burlington; R. S. Lovett of the Union Pacific and Daniel Willard of the Baltimore and Ohio, discussed the situation with President Wilson. They were at the white house for more than an hour and on leaving said they had asked for a conference to "discuss the general situation" and expected to see the president again. Although some of the sixty or more presidents are showing a disposition to prolong the negotiations in the hope that the sentiment of business men of the country will be shown to be opposed to the idea of an eight hour day, there was a general feeling tonight that a definite answer to President Wilson's demand cannot be much longer postponed.

So far as the presidents would discuss the situation tonight they still are insistent upon an arbitration of the eight hour day and all other issues with the employees. As the conferences continued there was less talk of action which would lead to a strike, but some of the executives are expected to fight to the last ditch any plan which would force an eight hour day upon the roads without some form of arbitration. The executives are said to realize that Mr. Wilson cannot recede from the position he has publicly taken, and some of them are convinced now that about all they can hope for is to come out with some concessions.

Among the more than six hundred representatives of railroad brotherhoods in Washington there was evident a feeling of restlessness and there were many inquiries of leaders as to how long they must remain.

Some of the leaders told inquirers today that they would not have to stay in Washington more than 48 hours. The railroad executives say that the case after all is to be decided by public opinion and that this will be found to support arbitration and condemn the eight hour day. They made public tonight several telegrams from commercial organizations thruout the country upholding arbitration for the settlement of labor disputes and opposing an eight hour day. The cabinet discussed the situation at today's meeting and in the opinion of some of the members the danger of a strike has been greatly lessened.

It is understood that the chief object of the visit to the white house was to ask the president to state specifically how he expected the railroads to make up the millions of dollars which the managements say it will cost them to put into effect the eight hour day they are asked to grant. What the president said in reply none of the committeemen would reveal. Heretofore, according to the railroad men Mr. Wilson has dealt with this phase of the subject only in the most general terms.

An invitation to visit the capitol, extended the employees today by Vice President Marshall, was accepted by a large number.

The vice president addressed them cordially.

The brotherhood heads in their first formal statement since arriving in Washington replied to various contentions of the railroad managers. The statement said in part: "It is true that the executives of the four brotherhoods advocated the passage of the Newlands' act and that they did so under the mistaken belief (which subsequent experience has shattered) that its terms would be carried out in good faith by the representatives of the companies."

"The sincerity of this new born and loudly proclaimed belief as expressed by the spokesmen of the railway presidents. \* \* \* We stand for the principle of arbitration for the settlement of industrial disputes. It is best shown by the attitude of these railway companies who are so loudly proclaiming the virtues of arbitration and their undying adherence thereto; by the attitude of these same companies toward arbitration on a long list of properties which

## PERSHING REVIEWS TROOPS IN MEXICO

FIVE THOUSAND MARCH PAST COMMANDER AT HEADQUARTERS

Men Show Their Discipline and Efficiency in Their Very Carriage—Similar Reviews to be Held at Other Points of American Line.

Field Headquarters of the American Punitive Expedition in Mexico, Aug. 21.—by aeroplane to Columbus, N. M., Aug. 22.—The five thousand infantrymen, cavalrymen and artillerymen, hardened by months of active service and re-equipped after their hardships, marched past Brig. Gen. John J. Pershing, commander of the expeditionary forces here today, in the first grand review held since the troops crossed the frontier March 15th.

Bronzed by the sun, the men showed in their very carriage their discipline and their efficiency. Veteran officers inured by years of service to such spectacles made no effort to restrain words of praise. The general himself was deeply stirred.

Down the front of the serried columns, General Pershing pausing occasionally to permit a more extensive examination of equipment, trotted briskly with his staff. Circling the regiments he returned to the reviewing post just as the twenty fourth infantry began to move.

Headed by their band, the negro infantrymen marched with matchless precision past the little group of staff officers, the officers hands snapping to a salute when they reached the general's red flag with its single white star.

Following came a regiment of cavalry, horses mincing past, well fed and glossy. Even the mules of the pack trains danced by. With the appearance of the mounted troops, the band's "brassy blare" was succeeded by the shrill notes of the bugle corps. Troop after troop of cavalry filed past, the trooper riding with the easy grace accorded popularly only to cowboys, their alignment perfect. The big mules carrying the mountain batteries and hitched to the wagons strained at their traces apparently as willing and in as good condition as they were at the outset of the expedition.

The troops looked "ready for any duty" to quote General Pershing. Five months of arduous service under a burning sun, followed by rest, drill and good food had welded them into a fighting machine that according to the high officer was ready to face an equal or greater number of any of the world's best fighting men.

Circling over the plain, came an aeroplane from Columbus. The pilot volplaned to within 200 feet of the earth and then sailed over the mounted column barely clearing them, coming to rest near the hangars.

Hardly had his motor ceased drumming when two others rose from their stations and soaring aloft winged their way over the reviewing stand, dipping and soaring until the last wagon train had passed in review.

Following this review regimental officers hurried back to camp to prepare for a general inspection of every department of the expedition. This is expected to take three or four days and will include an examination of quarters, plecter lines, cook tents, drainage, equipment, ordnance, transportation, sanitation and communication.

Similar reviews and inspections of troops at other points of the American line will be held.

## TRACE ELGIN TYPHOID EPIDEMIC TOWATCH FACTORY'S WATER SUPPLY

SPRINGFIELD, Ill., Aug. 22.—The typhoid fever epidemic at Elgin, Ill., has been traced to the water supply of the Elgin Watch company, according to reports received today by the state board of health from Dr. A. L. Mann, city physician of Elgin.

It is said the health of the several thousand employees of the factory is endangered. The state board has taken no steps to close the plant. It is believed with the discovery of the source of the infection the epidemic will be placed quickly under control. Six new cases were reported today from Elgin and one from Dundee, a suburb of Elgin.

## REPORT U BOAT FIRED ON AMERICAN STEAMER

The Hague, Aug. 22.—via London—It is understood that the American Steamer Owego arrived in Rotterdam about a week ago and that her captain reported that he had been fired upon by a German submarine off the Isle of Wight.

The teamer Owego, Captain Barlow, sailed from New York July 19th., for Rotterdam arrived there August 13th.

## SEEK TO RAISE GAS RATES.

Springfield, Ill., Aug. 22.—Failure of the natural gas supply in Crawford county is the Wabash Gas company, which supplies gas to Robinson, Crawford county, and surrounding towns to raise its rate from 30 to 50 cents per thousand feet. Hearing on the gas company's petition was before the state public utilities commission today.

## BEGIN DEBATE ON REVENUE MEASURE

Indications Point to Partisan Struggle of Several Days

## CHARGE EXTRAVAGANCE

Smoot Charges Democrats With Attempting to Procure Votes Under False Pretenses

## ATTEMPT TO RECOMMIT BILL

WASHINGTON, Aug. 22.—With Senator Simmons, chairman of the finance committee, submitting figures designed to disprove Republican charges of Democratic extravagance, and Senator Smoot, Republican finance expert, asserting that the Democratic party should be convicted for attempting to procure votes under false pretenses, debate on the \$205,000,000 emergency revenue bill began today in the senate. There were indications on every hand of a partisan struggle to be waged for several days.

Insisting that national defense preparations and the Mexican situation were altogether responsible for the necessity of special revenue legislation and a proposed bond issue, Senator Simmons declared Republicans in congress had clamored for even greater expenditures for defense and having done this, were seeking partisan advantage by making false charges of Democratic extravagance to the public.

Senator Smoot, opening the Republican assault on the revenue bill, said if the Democratic party were to be retained in control of the government the country would suffer an era of unequalled extravagance combined with inefficiency unsurpassed.

His attack was supported by Senator Curtis, who asserted that the burden of taxation should not be placed on the American people and that the revenues should be raised by a protective tariff.

Subtracting from the estimated disbursements the estimated receipts for 1917, Senator Simmons showed that the balance to be provided for is \$364,243,000. To meet this amount he submitted that the pending bill would raise \$205,000,000; the bond issue \$130,000,000, leaving a balance of \$29,243,000 to be taken care of by the general fund of the treasury, he said, amounted to \$134,337,895 on August 16th, last.

Referring to the proposed \$130,000,000 bond issue for Mexican expenditures, Senator Simmons said Panama bonds could be used to reimburse the treasury and added that up to this time the Democratic party had issued no Panama canal bonds whereas the Republicans during the Roosevelt and Taft administration sold \$134,000,000 worth.

Senator Smoot asserted that the Democratic party had not kept the pledges of retrenchment and economy and charged it with "wasteful and useless expenditures too long for remembrance."

Senator Curtis predicted "four or five deficiency appropriations before the year 1917 was over," advocated a return to the protective tariff and declared the Republican party was opposed to a war tax in time of peace.

Just before adjournment, Senator Penrose introduced a resolution to recommit the revenue bill to the finance committee with instructions that it be amended to raise a portion of the required revenue from the protective tariff. No action was taken on the proposal.

## HOUSE REPASSES ARMY BILL; MEASURE IS HASTENED TO SENATE

WASHINGTON, Aug. 22.—After the house today had repassed the \$314,000,000 army appropriation bill without the revised articles of war a feature which caused President Wilson to veto the measure, it was hastened to the senate and there referred to the military committee.

Tonight Chairman Chamberlain announced the committee would meet tomorrow and restore the articles of war eliminating the provision objected to by the president. There are reports that Republican Leader Mann may demand a quorum of the house and send the bill back to conference. Such a development might prolong the session of congress several days.

## COMMUTE SENTENCE

Springfield, Ill., Aug. 22.—The sentence of Joseph Bomba of Chicago, sent to the house of correction there July 24 after being convicted of assaulting a striker at the Wolf Manufacturing company's plant today was commuted and Bomba was released on parole.

FREEPORT, Ill.—Bakers of Freeport have announced an advance of two percent in the price of some of their products, chiefly pies and cakes, because of the high price of flour. The net weight of a five cent loaf of bread was slightly reduced.

## ICKES REPLIES TO CHARGE MADE BY JUDGE NORTONI AGAINST HUGHES

Points To Nominee's Record While Governor Of New York As Evidence Of His Progressiveness.

Chicago, Aug. 22.—Harold L. Ickes of Illinois in charge of the Progressive bureau at the Western National Republican campaign headquarters today issued a statement replying to a charge recently made by Judge A. D. Nortoni of St. Louis that "Mr. Hughes does not seem to grasp the spirit of the Progressive movement."

In the statement Mr. Ickes says: "Judge Nortoni will have difficulty in convincing fair minded citizens that as governor of New York, Mr. Hughes did not rank as the most forward looking and independent executive of his time. He gave New York the best administration it has ever had. He cleaned up the insurance department. He put thru a direct primary law. He upheld the Civil Law. Mr. Hughes was a governor and no one else."

"During all the early days of the great Progressive movement which culminated in 1912, Woodrow Wilson lifted not his hand nor raised his voice at any time to aid the cause of Progressiveness."

"The only public record he made during this period was the letter he wrote warmly advocating the election of that reactionary of reactionaries, Alton B. Parker as president of the United States."

"Based upon actual reports that have come to me from former Progressive leaders in different parts of the country I have no hesitation in saying that at this time not less than 80 to 85 per cent of the Progressives are back of Hughes. This percentage will be increased before election day."

## HOGS REACH HIGHEST PRICE IN CHICAGO SINCE CIVIL WAR

CHICAGO, Aug. 22.—Hogs sold for \$11.30 a hundred pounds at the Union Stock yards today. The highest price in the history of the market since the Civil War. Dealers predicted an advance to \$12 a hundred pounds in September. A further advance in the price of beans is expected dealers said. A year ago beans cost the housewife five cents a pound. The retail price now is eleven cents a pound. The demand for beans for European armies and for United States troops along the border are said to be the principal causes for the advance in price.

## WANTS ADEQUATE COMPENSATION LAW

Hughes Desires Wasteful System of Negligence Replaced

## SPEAKS OF LABOR LAWS

Nominee Points to Labor Legislation Enacted By Republican Administration

## SPEAKS AT RENO, NEV., TODAY

SACRAMENTO, Cal., Aug. 22.—Charles E. Hughes, before an audience in the armory here tonight declared for an adequate compensation law requiring compensation to persons injured in hazardous employments engaged in interstate commerce. Mr. Hughes also spoke of labor legislation enacted under Republican administrations. "It was under Republican administration," he said, "that the safety appliance act was passed, a great safeguard to railroad employees."

"It was under Republican administration that congress passed the hours of service act in order to prevent the undue exhaustion of employees thru hours of labor which were excessive. It was under Republican administration that the employers' liability act of 1906 was passed."

"I desire to see legislation of that character and every reasonable sort for the protection of labor enacted, to the end that there may be a feeling thru this country that justice is being done."

"And I desire to see our wasteful system of negligence replaced by proper compensation laws. That has been achieved in many states. The bill before congress deals only with government employees. In my judgment there should be adequate compensation in dealing with this subject to the supervision of congress in hazardous employments in interstate commerce."

"It makes a great difference whether half or less of large shares of the recoveries go for attorneys' fees. It makes a great difference whether our courts are crowded with negligence suits with the uncertain results; according to the manner in which evidence as to ordinary injustice is developed. One man succeeds and another man fails. Accident and the risks of accident in hazardous employment are inevitable; they should be dealt with as risks of employment, under intelligent compensation laws."

"It is not poetry or rhapsody to speak of the ideals of human brotherhood."

"Unless we have in this country the spirit of true fellowship; unless the man with investments looks upon the man working with his hands as a human being entitled to decent, proper conditions of living and to a fair share of the profitable results of that work; unless those in charge of the government realize the importance of making sure the basis of successful achievement; unless thruout all is the spirit of co-operation, the United States can never achieve its ideals and greatness of prosperity."

"I had an interesting experience as governor of New York. When I left that office to go upon the bench what I am about to read appeared in the official organ of organized labor in New York. This is what the organ said in October, 1910, and I read it in order that there may be no misapprehension as to my attitude. It was said then with candor, at a time when I had removed myself from the political field."

Mr. Hughes read as follows: "Now that Governor Hughes has retired from politics the fact can be acknowledged that he was the greatest friend of labor that ever occupied the governor's chair at Albany. During his two terms he has signed 56 labor laws."

"Only 162 labor laws have been enacted in this state since its erection in 1777—in 135 years. One third of these excellent in quality all others, have been enacted and signed during Governor Hughes' term of three years and nine months."

"That is what organized labor thru its official organ said of my labor record after I had left the field of politics. It was said, well knowing that I had not failed to disagree with labor when I thought the demand was not right."

Mr. Hughes repeated his attack on the administration for its Mexican policy, reiterated his argument for a protective tariff for "adequate preparedness," and stated his views on the maintenance abroad of American rights. Mr. Hughes was very tired and somewhat hoarse tonight.

He departed tonight for the east. He will speak at Reno, Nev., tomorrow.

## URGES CATHOLIC VOTERS TO UNITE

ST. LOUISAN MAKES APPEAL AT MEETING IN NEW YORK

Asserts He is Contending, for an Organization of Catholics to Bring Into Public Life a Spirit of Liberty and Tolerance.

New York, Aug. 22.—Catholic voters thruout the United States were urged at a mass meeting of the Roman Catholic centralverein here tonight to unite and cast their influence at the polls "where it will subserve the high and holy principles" for which Catholics stand. James F. Zopf, president of the Gonzaga Union of St. Louis, who made the appeal, declared there were at least 3,000,000 Catholic voters in the country—"quite a force" he said, "for the bringing about of proper conditions."

"That," Mr. Zopf added, "is almost as many as the Republican party polled at the last general election. That very number places in our hands a power to be used to work betterment."

Mr. Zopf asserted he was not contending for a religious party, but for an organization of Catholics to bring into public life a spirit of liberty and tolerance.

A resolution demanding that at the end of the world war the pope "be heard in the council of the nations for the securing and cementing of a permanent peace," was passed by the American Federation of Catholic societies at its convention. It said:

"As the representative of the prince of peace and the common spirit—father of so many millions among all nations of earth, he is the logical arbiter to whom warring peoples can turn for a disinterested and impartial settlement of all their difficulties in accordance with the sacred principles of justice and humanity."

A resolution was adopted inviting thoughtful attention to a statement regarding the attitude of American Catholics toward their persecuted co-religionists and toward those who are not their co-religionists in Mexico.

The statement embodied in the resolution declared that at no time since the "beginning of the sad outrages against religion in Mexico" has the church or any official body or leader affiliated with the church, lent aid, financial or otherwise, to the stirring up of strife, either here or elsewhere against any power or group claiming to be a government or even a faction in Mexico.

The only money raised by Catholics in this country to aid Mexico, it was added, was raised and expended for charitable purposes.

"What Catholics of the United States ask in connection with Mexico," declared the resolution, "is that whatever form of government be established in Mexico it shall grant and guarantee liberty of conscience and freedom of worship as they exist in our United States and which are denied in Mexico by unjust laws."

A resolution passed by the Catholic Young Men's National Union today called upon members to act as a unit in taking up preparedness and urged them to communicate with representatives in congress "in the effort to bring about real preparedness."

The following officers of the union were re-elected:

President—Michael J. Slattery, of Philadelphia.  
First vice president—M. F. Fitzpatrick, Baltimore.  
Second vice president—G. R. Golderman, Wilmington, Del.  
Secretary—Sylvester A. Houck, Jr., Philadelphia.  
Treasurer—Harry R. Murray, of Philadelphia.

## DISCUSS METHODS TO AVOID PAPER FAMINE.

Chicago, Aug. 22.—Methods by which a paper famine may be avoided were discussed at a joint meeting of the Illinois Daily Newspapermen's association and the Inland Daily Press association here today. Hopewell L. Rogers, business manager of the Chicago Daily News was the principal speaker.

"The condition is critical," Mr. Rogers said, "but publishers have it in their power to bring conditions back to normal by reducing the size of the paper they print."

## LOWDEN REMAINS DOWNSTATE

Chicago, Aug. 22.—Frank O. Lowden, of Oregon, candidate for the Republican nomination for governor did not open his Chicago campaign today, as had been planned. At the last moment the candidate decided to stay downstate two more days.

He will come to Chicago to open his campaign Thursday when he will address a mass meeting at the Auditorium under the auspices of the Frank O. Lowden's Business Men's association.

## CONVENTIONS IN MISSOURI

## PARIS REPORTS GAINS

British and French Who Had Crossed the Struma Are Pushed Back on River

## LITTLE CHANGE ON WEST

Both allied wings on the Saloniki front, where the soldiers of at least seven nations are in battle, have been bent back by the Bulgarians. In the center, however, where the allies' main force is being made at the entrance to the Great Vardar Valley, Paris reports important gains.

Nothing is said about the Russian or Italian share in the fighting. Serbians apparently have been the heaviest losers and have been forced back on their extreme left about five miles from the Serbian-Greek frontier. They claim however, continued progress on the other sections of their front.

On the allied right the British and French who had crossed the Struma have been forced back on the river.

On the western front there has been little change. British continue their efforts to surround Thiepval and report the capture of one hundred yards of German trenches in the direction of Martinpuich. There has been no action of importance on the French section.

For several days meager Russian reports have insisted that nothing of importance has occurred in the east. Berlin however, describes very heavy fighting both on the Stokhod and in the Carpathians.

London claims a heavy blow against Germany on the sea.

The British submarine E-22, reports having attacked an 18,000 ton German battleship and the submarine's commander believes he sank it.

There is no news from the Italian front.

## CHICAGO MANUFACTURERS' PRODUCTS SHOW BIG INCREASE

CHICAGO, Aug. 22.—The products of Chicago manufacturers during the year 1914 reached a total valuation of \$1,482,814,000, an increase of \$201,643,000 over the value of products manufactured here in 1909 and of about \$500,000,000 over 1904, according to statistics made public by the Chicago association of commerce today. During the five year period the products of the packing industry increased from \$325,062,000 to \$410,709,000, the gain in the manufacture of railroad cars was from \$26,251,000 to \$66,935,000; printing from \$74,211,000 to \$97,507,000 and confectionery from \$11,000,200 to \$20,349,000.

Important advances were made in the output of women's clothing, shoes, bread, soap, paint and malt liquors. The figures for iron and steel showed a marked decline.

## ORGANIZE REFERENCE BUREAU

Dr. Charles F. Reischer has gone

found that 1,270 were sons of min-

Probably of as much interest to  
the farmers as the campaign tours of  
presidential candidates is the an-  
nouncement of the trip to be taken  
across the country by the farm loan  
board, appointed to put in operation  
the new rural credits system. The  
board begins its tour next Monday,  
visiting the New England states, New  
York and the tier of states along the  
northern frontier from Michigan to  
Washington. It then goes down the  
coast to California and returns  
across the central part of the coun-  
try. Later it will visit the South.  
Its immediate purpose is to obtain  
information upon which to base the  
division of the country into twelve  
farm-loan districts.

## Common Labor Is Scarce.

Inability to secure common labor  
is said to be one of the reasons why  
state aid road building is proceed-  
ing slowly in Illinois. It is hard to  
get men to do the real hard work  
that is necessary to be done. A large  
portion of the transient foreign ele-  
ment has returned to Europe to par-  
ticipate in the war. On the other  
hand lucrative employment, that is  
more lucrative than common labor,  
appears to abound, so that there is  
really no object in men taking the  
less desirable jobs. It is generally  
recognized that common labor is  
about the hardest kind that there is.  
Men wish to avoid it if they can. As  
a rule it is the least compensated. It  
requires more exertion, and is a  
harder strain on vitality. For years  
past this labor has been done by the  
fresh foreign element, which at it  
could make better wages than they  
were paid in the old country. With

I've had my fill of honest toil; this

thing of wrestling  
with the soil has  
sort o' lost its  
charm." And so he  
buys a house in  
town, and thinks  
that he will settle  
down to the soft  
and downy ease,  
but ere a year has  
gone its way, he's  
yearning for the  
bales of hay, the  
pigelets and the  
bees. He finds the  
urban life a bore;  
his feet are cold, his soul is sore,  
time drags on leaden feet; so he re-  
solves to travel back and build the  
tall alfalfa stack, and shock the  
bearded wheat. The farmer seldom  
learns to read; he is so busy sow-  
ing seed, and welding shepherds'  
crooks, and making hay in verdant  
vales, and combing burs from horses'  
tails, he has no time for books. So  
when he moves himself to town, he  
cannot with a tome sit down, and  
read the stuff that's hot; he cannot  
lose himself in Pope, or wallow deep  
in Shakespeare's dope; or soak up  
Walter Scott. Unhappy is that man,  
indeed, who thinks it waste of time  
to read, whose thoughts are all of  
hay, who'd rather mess around a  
churn than read a book by Laurence  
Sterne, or ode by Thomas Gray.

## DATES IN ILLINOIS HISTORY.

August 23, 1786—Congress notified  
the inhabitants of Kaskaskia that  
their petition for a government  
had been received and that a plan  
was being considered, to be put in-  
to effect as soon as the details  
could be arranged.

these gone there seems no one dis-  
posed to take the vacant places. Na-  
turally this will tend to increase the  
wages, it is likely that there will be  
a better response.

It looks as if there was little ex-  
cuse for a man being out of employ-  
ment, if he really wishes to work.

## Hughes' Plain Talk

It is the general comment on Gov.  
Hughes speeches that, whatever else  
may be said of them, they do not  
mince words. The Republican can-  
didate speaks straight from the  
shoulder. For instance, his declara-  
tion that the Democratic plank prom-  
ising protection to Americans in ev-  
ery part of the world is good doc-  
trine and that he believes in making  
it real, and "I do not think that in  
making it real we should encounter  
the danger of war. I would not  
shrink if we did," while it appeals to  
some, rather startles some of the old  
timers. On the other hand, his cou-  
pling his declaration that he would  
be neither "too proud" nor afraid to  
fight, with his forceful advocacy of a  
"world court for the settlement of  
international disputes," is an occa-  
sion of gratification to the host of  
Americans who, while in no sense  
cowards, are firmly convinced that  
war is an evil against which every  
possible precaution should be taken.  
Another straight from the shoulder  
statement which Mr. Hughes made at  
Tacoma was, "I would not shrink war  
if it came in the performance of our  
obvious duty in the protection of American  
rights. In the protection of  
American citizens, under interna-  
tional law, we do not endanger our  
peace. We conserve it."

## Unity in Maine

Republican and Democratic lead-  
ers recognize alike that it is to be  
war to the hilt in Maine, where two  
seats in the Senate, the governorship  
and four seats in the House are at  
stake, and which state usually has  
such a powerful moral influence on  
the subsequent election. Any linger-  
ing hope the Democrats have enter-  
tained of finding a divided opposition  
in Maine has gone glimmering. The  
Republicans have corralled most of  
the influential Progressive speakers  
and are to send them into the state.  
Among these, besides Col. Roosevelt,  
are Hon. Arthur L. Garford, of Ohio,  
formerly Progressive candidate for  
senator in the Buckeye state; Hon.  
Raymond Robins, of Chicago, once a  
powerful Progressive leader in Illi-  
nois and later the chief but vain hope  
of the Democratic administration in  
Illinois; Hon. Henry J. Allen of Kan-  
sas, Hon. Edward C. Toner, of Indi-  
ana and also Hon. Oswald Ryan of  
the same state.

## New Issue Confronts Voters

A new issue is confronting the  
voters in seven Illinois counties this  
year. In addition to being called up-  
on to decide between Republican or  
Democrat or Socialist or Prohibition  
candidates and policies, and in some  
localities to vote for or against good  
road or school house or court house  
bonds, they will vote on the question  
of human life.

For the first time since Illinois be-  
came a state, the matter of building  
county tuberculosis hospitals will be  
put squarely up to the voters. In  
Ogle, Adams, Morgan, Livingston, La  
Salle, Rock Island and Kane coun-  
ties. It is expected that Greene  
county will join the group before  
November. Other states, notably  
New York, Michigan, Wisconsin and  
Indiana have gone far ahead of Illi-  
nois in this respect and have provid-  
ed numerous institutions where vic-  
tims of tuberculosis may go and be  
restored to health. Public health  
workers throughout the state are watch-  
ing with great interest the outcome  
of the Illinois campaign.

## To Help The Producer.

The office of markets and rural  
organizations of the Department of  
Agriculture is to be enlarged in  
scope. A system of live stock report-  
ing, which should be of great value  
to live stock producers and handlers  
at markets, is to be inaugurated.  
This is provided for in the agricul-  
tural bill recently signed by the pre-  
sident. A sum of \$65,000 is ap-  
propriated for the purpose and \$15,000  
is made immediately available for  
the work.

The secretary of agriculture is  
authorized to "gather from stock-  
men, live stock associations, state  
live stock and agricultural boards,  
common carriers, stock yards, com-  
mission firms, live stock exchanges  
slaughterers and meat packing  
companies and others, information  
relative to the number of different  
classes and grades of marketable  
live stock, especially cattle, hogs,  
and sheep, in the principle live  
stock feeding districts and grow-  
ing sections; prices, receipts and  
shipments of the different classes  
and grades of cattle, hogs and  
sheep at live stock market centers;  
prices of meats and meat food  
products and the amounts of such  
products in storage; to compile  
and publish such information as  
such frequent intervals as most  
effectively to guide producers, con-  
sumers and distributors in the  
sale and purchase of live stock,  
meats and other animal products;  
and to gather and publish any re-  
lated information pertaining to  
marketing and distribution of live  
stock, meats, animal products."

Such a mass of information as the  
departments is directed to secure  
and disseminate for the benefit of  
the live stock industry should be of  
great value. Its circulation over the  
country through daily newspapers

will enable the live stock producer  
and shipper to better govern his op-  
erations in accordance with the sup-  
ply requirements at distributing  
centers.

If through its system of daily,  
weekly and monthly reports, widely  
circulated over the country, the de-  
partment can effect a lessening of  
glutting supplies of live stock in the  
markets from time to time, and a  
narrowing of fluctuations in prices,  
the work undertaken will have strong  
influence in extracting some of specu-  
lative element from the industry.

## Wilson On Union Labor.

In a baccalaureate sermon deliv-  
ered to the graduating class of Prince-  
ton university, June 14, 1909, at  
which time he was not a candidate  
for the presidency, Woodrow Wilson  
said:

"You know what the usual stan-  
dard of the employee is in our day. It  
is to give as little as he may for his  
wages. Labor is standardized by the  
trades-unions, and this is the stan-  
dard to which it is made to conform.  
No one is suffered to do more than  
the average workman can do. In  
some trades and handicrafts no one  
is suffered to do more than the least  
skillful of his fellows can do within  
the hours allotted to a day's labor,  
and no one may work out of hours at  
all or volunteer anything beyond the  
minimum. I need not point out how  
economically disastrous such a regu-  
lation of labor is. It is so unprofit-  
able to the employer that in some  
trades it will presently not be worth  
his while to attempt anything at all.  
He had better stop altogether than  
operate at an inevitable and invari-  
able loss. The labor of America is  
rapidly becoming unprofitable under  
its present regulation by those who  
have determined to reduce it to a  
minimum. Our economic supremacy  
may be lost because the country  
grows more and more full of unpro-  
fitable servants."

The young men who were leaving  
college went out in to the world with  
this message ringing in their ears.  
Union labor, sitting as a jury on the  
claims of the rival candidates for the  
presidency, can hardly fail to con-  
sider this as part of the evidence  
against Woodrow Wilson.

## Bishop Fallows

The illustrious orator at the cha-  
teau yesterday evening, Bishop  
Fallows, is a man with a remark-  
able history. He was born in Man-  
chester, England, December 31, 1835,  
and though nearly 81, he is  
wonderfully active and well pre-  
served, showing no indications of  
advanced age. His father was a cot-  
ton manufacturer of considerable  
note and had a large trade. The  
family settled in Wisconsin and he  
entered the university of that state  
and graduated in 1859, the valedic-  
torian of his class and received  
from it the degrees of A. B., A. M.,  
and L. L. D. For four times he  
was vice president of Gaylesville uni-  
versity, Wisconsin till the breaking  
out of the war when he enlisted  
as chaplain of the 32nd Wisconsin  
Volunteers but that office didn't  
suit him so he was commissioned as  
Lieut. Colonel of the 40th Wiscon-  
sin Volunteers, later Colonel of the  
49th Wisconsin Volunteers and for  
meritorious services was brevetted  
brigadier general of Volunteers. He  
participated in the usual number of  
battles and was in Sherman's famo-  
us march to the sea. He belonged  
to the army of the Tennessee which  
was never defeated in battle.

At the close of the war he re-  
turned to Wisconsin and was chosen  
state superintendent of public in-  
struction, appointed and elected  
eight years and brought all schools  
of the state in line with the uni-  
versity. Two years he was president of  
Illinois Wesleyan University and  
there sought to democratize educa-  
tion and give a degree to a man  
who could pass an examination even  
if he had not attended college.  
There too the seeds of the chateau-  
quas which have blessed the land  
were sown. He also organized a  
law department.

From Bloomington he went to  
Chicago where he has been for forty  
one years. He is a member of the  
Reformed Episcopal church and has  
been elected Bishop and is now  
Presiding Bishop of the denomina-  
tion. During his long residence he  
has been rector of the large St.  
Paul's church. He was general  
chairman of the educational con-  
gress during the World's Fair in  
Chicago. He has attended one hun-  
dred congresses in twenty-one years;  
is president of the board of Man-  
agers of the State Reformatory and  
has helped parole eight hundred  
boys. He was president of the com-  
mission appointed by the Governor  
and legislature to celebrate the 50th  
anniversary of the emancipation  
proclamation at which time a won-  
derful exhibit of negro progress was  
made.

With all his multifarious duties he  
is active and strong and shows no  
signs of age or weakness. He has  
the true simplicity of greatness and  
fraternized with every person with  
perfect ease and grace. He is truly  
a remarkable man.

NEW LUBRICANT RESISTS HEAT  
PREVENTS RAPID SEDIMENTATION

Ordinary oil breaks down under the ter-  
rible heat of an automobile engine. Within  
a few hours, black sediment is formed which  
partially crowds-out the remaining liquid  
from the friction points where lubrication  
is most vital. Such under-supply of oil  
causes friction between the metal surfaces,  
intense heat, loss of power and expen-  
sive repairs.

The new lubricant that resists heat pre-  
vents rapid sedimentation, insures gener-  
ous lubrication, and, except where me-  
chanical faults exist, prevents  
carbon.

## Relative Oil Destruction

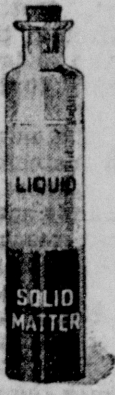

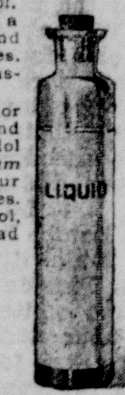

The contents of the bottles  
shown, illustrate the relative  
durability of ordinary oil and  
of Veedol the new lubricant that  
resists heat. Veedol deposits  
only a small fraction as much  
sediment as ordinary oils.

There is a fundamental differ-  
ence between ordinary oils and  
Veedol. Ordinary oils are un-  
stable and therefore unserviceable because  
of non-heat-resisting chemical structure.  
Special processes of manufacture developed  
by this company and the use of Pennsylv-  
ania paraffine-base crude oil give Veedol,  
the new lubricant, its unusual chemical  
structure and its remarkable heat-resist-  
ing ability.

## Make this test

Clean out the crank case. Fill with ker-  
osene. Run the motor about thirty seconds  
under its own power; then draw out all  
kerosene and refill with Veedol.  
Now make a test run over a  
familiar road—up steep hills and  
along straight, level stretches.  
Keep a record of oil and gas-  
oline mileage.

You will find that your motor  
back together new pickup and  
hill climbing ability. Veedol  
enables you to get the maximum  
mechanical efficiency from your  
car and to reduce your expenses.  
Get a five-gallon can of Veedol,  
and make this convincing road  
test.

ILLINOIS AS A STATE IN  
THE UNITED STATES

Interesting Statistics Show Ranking  
of Illinois Among Different Lines,  
Stands Among the Best.

An answer to a question as to how  
the state of Illinois compares to oth-  
er states in various fields, results in  
the following interesting compila-  
tion:

Illinois ranks first in—value of  
crops, production of corn, production  
of oats, average value of farm land  
an acre, and number of women in  
higher institutions of learning.

Second in—total wealth, coal pro-  
duction, rural population, number of  
weekly papers published, limestone  
production, number of persons en-  
gaged in mining, number of men  
studying in higher institutions of  
learning.

Third in—population, number of  
male of militia age, number of pu-  
pils enrolled in common schools, val-  
ue of manufactured products, pig  
iron production.

Fourth in—number of men of vot-  
ing age, number of daily newspapers  
published, number of institutions of  
higher learning, number of persons  
engaged in farming, value of public  
property, including institutions, ar-  
mories and schools.

Fifth in—petroleum and natural  
gas production.

Eighth in—population per square  
mile.

Fourteenth in literacy.  
Twenty-third—in area.

## LOWDEN ATTENDS

## TRACTOR SHOW

Bloomington, Ill., Aug. 22.—Frank O. Lowden was here today attending the Tractor show and meeting acquaintances among farmers, politicians and plain citizens. It was a sort of all-day reception, with no formal speech making. Once or twice he made brief remarks when some inquiry regarding Sinnissippi Farm called for his views on breeding cattle, soil improvement and agricultural needs generally. To the politicians he reiterated his plea for party harmony and to forget factional differences in Republican ranks, so that whoever was nominated for governor at the primaries next month would be certain of being elected in November.

## CONCORD MAN VERY ILL

## SPECIAL TAX NOTICE

Notice is Hereby Given to All Persons Interested

That the City Council of the City of Jacksonville, Illinois, having ordered that a local improvement consisting of a street pavement be constructed on Prairie Street in said City, beginning at the South line of the intersection of said Prairie Street with West Lafayette Avenue in said City, running thence South to a point eighteen (18) feet North of the South line of Edgemoor Street in said City; which shall be constructed by excavating for the width as shown by the plans, plats and profiles on file in the office of the City Clerk; after excavating there shall be laid a concrete foundation, a binder course of stone and asphaltic cement, and upon this shall be placed a wearing surface of sheet asphalt; a combined concrete curb and gutter shall be constructed on each side of said roadway also catch-basins and iron inlets all of which is further shown and more particularly described in the plans, plats, profiles and specifications for said work, on file in the office of the City Clerk of said City to which reference is hereby made; and the Ordinance for the same being on file in the office of the City Clerk of said City, and also made part of the petition in this proceeding and said City having applied to the County Court of Morgan County, Illinois, for the confirmation of the assessment of the cost of said improvement according to the benefits, and an assessment therefor having been made and returned to said Court; the final hearing thereon will be held on the 11th day of September A. D. 1916, at 9 o'clock a. m., or as soon thereafter as the business of the Court will permit, and all persons desiring to do so may file objections in said Court before said date, and may appear on said hearing and make their defense.

It is further provided by said ordinance, that said assessment shall be collected in ten (10) installments, with interest at the rate of five per cent per annum, as provided by law.

Dated at Jacksonville, Illinois, this 23rd day of August, A. D. 1916.  
Walter B. Rogers,  
Commissioner appointed to make said Assessment.

# ILLINOIS COLLEGE FOOT BALL SCHEDULE IS COMPLETED

Prospects are Good for Another Championship Team—Quarterback Position to be Filled—Men are Already Training—The Schedule.

The time is drawing near when the men at Illinois and other colleges will begin to work on the gridiron night after night and through this conference no team stands a better chance of winning the conference championship of Illinois college. A number of old men are to be back and coach Harmon will no doubt put that same vim and life into the team that he has in former years. Some of the players have already begun training as are athletes all over the country beginning to get in shape for the fall sport.

The absence of Stewart at the quarter back position will probably be the one most missed. In the other positions vacated by graduates it is expected that the men who played on the second team last year will be able to take their place. It is the unexpected that usually happens however and it is very probable that a freshman will come in who will make a most acceptable quarter. At any rate the Illinois students are not pessimistic. Captain Frisbie has been in training all summer and should develop into a wonder on the gridiron this year. He was all state tackle last year, and every one who saw him play felt that he was one of the best men in the game. This year if appearances count he will even be better.

Manager Blum has completed the schedule and it bids fair to be a good one. The game scheduled with St. Louis University is one which any team can be proud of. The University has a strong team and this should be one of the best games of the year. Lombard College will experience but few losses on her team and it was generally conceded last year that Lombard was the hardest team met. Millikin says she is coming back strong at Illinois this season, in return for the drubbing she received last year, but Illinois is not worried. In fact every man on the team, or who hopes to make the team, can hardly wait until Nov. 11, when they meet Millikin at Decatur.

The following is the schedule that has been booked:

Sept. 29—Blackburn college at Jacksonville.  
Oct. 6—Eastern Normal at Jacksonville.  
Oct. 14—Lombard College at Galesburg.  
Oct. 20—St. Louis University at Jacksonville.  
Nov. 3—Wesleyan University at Bloomington.  
Nov. 11—Millikin University at Decatur.  
Nov. 17—Shurtleff College at Jacksonville.  
Nov. 25—Carthage College at Carthage.  
Nov. 30—Southern Ill. Normal University at Jacksonville.

## HOUSTON FAMILY REUNION.

Mr. and Mrs. Ed Houston was host and hostess Sunday to members of the Houston family who gathered for a pleasant reunion. Good things to eat in ample quantity were provided and the hours were spent in sewing and music. Each guest will preserve memories of a day well spent. Those present were Mrs. Mary Houston, mother of the place; Walter Houston and family, a brother, of Grace Chapel; Mrs. Al Wood and daughter Flora, a sister, of Meadville, Mo.

## ILLINOIS HUNTERS

### WIN FIRST BATTLE

Illinois hunters have been successful in their fight for an open season for duck shooting. The biological survey at Washington promulgated regulations yesterday which give Illinois, Missouri, Kansas, Iowa and Nebraska an open season from September 16 to December 31. The regulations, however, do not give an open season for spring duck shooting.

The federal migratory bird act, passed by congress two years ago, conflicted with the state law, regarding the shooting of ducks, and Illinois hunters have been battling for an open season. H. O. Norcross of Carlyle, one of the leaders in the fight, received a message yesterday stating that the new regulations will become effective in September. They apply only in cases where equal protection to the birds is not provided under state laws, the state regulations designate where the open season is earlier than stipulated in the federal designations.

All insectivorous birds are protected indefinitely under the secretary's order and protection until September 1, 1918, is provided for hand-tailed pigeons, cranes, wood ducks, swans, curlew, willet, upland plover, and smaller shore birds. Open seasons for other water fowl, coots, gallinules, jack snipes, black breasted and golden plover, greater and lesser yellow legs, rails and wood ducks are defined state by state.

## IOWA FAIR READY FOR OPENING

Des Moines, Iowa, Aug. 22.—Agriculture is to be the keynote of the Iowa State Fair which is to begin a week's engagement here tomorrow. Practically every county in the state will have exhibits in every way representative of the agricultural interests of Iowa. It is the belief of persons who have assisted in installing these exhibits that the fair will be the most comprehensive ever held in Iowa so far as the farm displays are concerned. The exhibition of live stock also promises to be of unusual note. Prizes aggregating \$10,000 have been offered this year for the horse show to be held in conjunction with the fair.

## KENTUCKY ELKS MEET

### AT PADUCAH

Paducah, Ky., Aug. 22.—Paducah is in gala attire in honor of the members of the order of Elks, whose annual state convention opened here today under conditions of a most favorable nature. A three-day program combining business with pleasure has been prepared for the gathering. Large delegations of visitors are in attendance from Louisville, Lexington, and other cities of Kentucky.

## CAMP IN GOOD CONDITION

Washington, Aug. 22.—Sixteen war department hospitals established along the Mexican border are now equipped to care for about 2,500 men and when completed will have a capacity of 4,500.

## CARS STOP AT 10 O'CLOCK

Chattanooga, Tenn., Aug. 22.—All street cars ceased operation at ten o'clock as a precaution against threatened violence by strike sympathizers. The order was issued after a rock had been thrown thru a car window, injuring a woman and after windows in another car had been broken by pistol shots. Hundreds were compelled to walk home from the business districts.

Commissioners Robert Coultas, William F. Roegke and David Wilson went to Quincy Tuesday to attend the state meeting of commissioners and supervisors which opened yesterday.

## MISS ANDERSON AND MR. GARNIER WILL WED TODAY IN FRANKLIN

Wedding to be Solemnized at Home of Mr. and Mrs. G. J. Dowell This Morning—Will Take Wedding Trip to Colorado

The marriage of Miss Martha Anderson and Mr. Edward Garnier will be solemnized at the home of Mr. and Mrs. G. J. Dowell, in Franklin this morning at 9 o'clock, with the Rev. E. S. Vorbeck, of the Methodist church, officiating. Immediate relatives will be present, including Mr. and Mrs. Frank Miller and son Fred, Mr. and Mrs. Martin Anderson and daughter, Beatrice. The bride will wear a blue traveling suit and will carry lilies of the valley. The groom is a train dispatcher in the employ of the Burlington at Beardstown and his connection with the railroad has been a series of advances. Miss Anderson graduated from the Franklin high school and is a young lady of many talents, who thru her pleasing personality, has won a host of friends, all of whom will join in extending most hearty congratulations and in wishing her many happy years of wedded life.

Following the ceremony the young couple will come to Jacksonville and from here they will go to Colorado for their wedding trip. Upon their return they will make their home in Beardstown.

## FLEETS GRAPPLE FOR EACH OTHER IN ELABORATE WAR GAME

Navy Department Invokes Every Agency to Aid Defending Fleet—Rear Admiral Knight Empiric Game.

Washington, Aug. 22.—Two mighty fleets were grappling for each other in the dark tonight somewhere off the Atlantic Coast, in the opening phase of the most elaborate war game ever undertaken by the American navy. The navy department on a war footing was invoking every agency to aid Rear-Admiral Helm, commanding the "blue" defending fleet, which was sweeping seaward behind a line of scouts nearly six hundred miles long to repulse Admiral Mayo's "red" battle fleet. The game began at six o'clock this morning when Admiral Helm on his flagship the Rhode Island received word that an agent of the state department aboard a ship bound from New York to Gibraltar had reported fifteen battleships of the "red" fleet six miles due east of Cape Hatteras with thirty transports bringing an army of invasion to be landed somewhere between Cape Hatteras and East Port, Me.

An hour after the report came, the twelve battleships of Admiral Helm's main fighting fleet, manned in part by civilian volunteers and naval militiamen were headed seaward from Narragansett.

Rear-Admiral Gleeves commands the scouting force which is circling on the point where the enemy was known to be at daylight this morning.

Admiral Mayo's problem is to force a way thru the "blue" fleet for his transports.

Admiral Mayo controls a force that Admiral Helm must employ strategy to defeat. Rear-Admiral Knight head of the navy war college, is umpiring the game from the Battleship Pennsylvania.

By the terms of the problem, prepared at the naval war college, the "red" commander has until Sept. 1st to effect a landing.

## CREDIT MEN NOMINATE.

Omaha, Neb., Aug. 22.—H. Victor Wright, Los Angeles and R. H. Poin-dexter, St. Louis, were nominated today for the presidency of the National Retail Men's association which is in convention in Omaha. The election will be held tomorrow.

The convention went on record in favor of a system whereby the sender could find out who signs for a registered letter. Other subjects relating to credit constituted the papers read in the session today.

## URG IMPARTIAL ARBITRATION.

Los Angeles, Cal., Aug. 22.—A telegram urging "impartial arbitration of the entire controversy" between the employers and the employees in the threatened strike of railroad trainmen as a means of protecting "the rights of both sides," was sent to President Wilson today by the Merchants and Manufacturers association of Los Angeles.

## MISS MARTIN OPENS

### SPEAKING CAMPAIGN

Chicago, Aug. 22.—Miss Anne Martin, chairman of the National Woman's Party opened her speaking campaign in behalf of Hughes and Fairbanks in Illinois tonight with an address to students at the University of Chicago. Miss Jessie Harby Mackaye of Washington, D. C., presided.

## ANGLERS IN TOURNAMENT

Newark, N. J., Aug. 22.—Anglers from many sections of the United States and Canada are arriving in this city to take part in the ninth annual international bait and fly casting tournament, which is to open tomorrow and continue through the remainder of the week. The tournament will form a feature of Newark's 250 anniversary celebration. The contests will be staged on the lagoon at Weequahic Park and will be conducted under the auspices of the Newark Bait and Fly Casting Club.

## RAILROAD HEADS FRAMING REPLY

(Continued from page one.)

they absolutely own and control but which they have refused to include in the present negotiations and to the men on which lines they are refusing their 'day in court' so feelingly referred to by the spokesman of the railway presidents."

Here followed a list of sixty four properties which the statement said the Brotherhood officials sought fulfillment on June 27th, to have represented by the railroad managers in the present dispute.

"In addition to this," the statement continued, "are a large number of quasi independent properties largely dominated by the same financial powers, which we have vainly demanded should be included. These properties employ comparatively small numbers of men and on account of the fact the railway managements feel that demands on those properties do not constitute a menace as they do on the larger properties. Therefore, the right of their day in court, is continuously refused. Thus, the actual position of the conference committee and of the presidents above them is that on lines where the men are not strong enough to force a hearing there is 'nothing to arbitrate,' while on lines where a costly contest could be precipitated arbitration becomes the dearest principle connected with the settlement of industrial strife.

"It might be pertinent at this time to refer to the fact that the conference committee of managers and their superiors have excluded the army of colored brakemen and firemen employed on the southern railways from all benefits that might be granted in these negotiations or from all arbitrations that might arise. Are they, or are they not, entitled to their day in court.

"Likewise the white firemen employed on those lines where the negro predominates. Why is he excluded from this beneficial plan of arbitration?

"Also the posters on eighteen of the eighteen properties that are represented by the conference committee, if arbitration is so desirable while will those companies not grant that boon to those men?

"The extreme solitude on the part of the railway presidents for the eighty percent of unorganized employes and their rights become farcical when it is known that on a large number of those lines it is a dischargeable offense on any of their railways for that eighty percent to take any steps towards organizing for the purpose of bettering their wage or working conditions."

## EXPECT ENDORSED CANDIDATES TO SUPPORT COOK COUNTY MEN

CHICAGO, Aug. 22.—Candidates for state office at the Republican primaries who have received the endorsement of the Cook county regular Republican organization will be expected to endorse and support in return the Cook county candidates on the same slate according to a resolution adopted today at a meeting of representatives of 32 of the 36 wards in Chicago and six country districts in Cook county. The state slate endorsed by the Cook county regular Republican organization is as follows:

Governor—Frank O. Lowden of Oregon.  
Lieutenant Governor—John G. Oglesby of Elkhart.  
Secretary of State—Louis L. Emerson of Mount Vernon.  
State Treasurer—Len Small of Kankakee.  
State Auditor—Homer J. Tice of Greenville.  
Attorney General—Edward J. Brundage of Chicago.

For Congressman-at-large—Medill McCormick will be supported in every ward while William E. Mason will receive the endorsement of all but four wards which will support B. M. Chipperfield of Canton.

## NATIONAL ARCHERY TOURNEY

Jersey City, N. J., Aug. 22.—Knights and Ladies of the bow from many sections of the country gathered in Jersey City today to take part in the thirty-eighth championship tournament of the National Archery Association. The tournament was ushered in today with the first and second American rounds for men and second Columbia rounds for women. The contests will continue for four days. Besides the honor of winning the championships and the range medals, numerous special prizes have been offered.

## COLORADO PYTHIANS IN SESSION

Greeley, Colo., Aug. 22.—Leaders in Pythian circles from all the prominent cities and towns of Colorado were on hand here today for the opening of the annual State convocation of the order. The gathering includes the grand lodge meeting of the Knights of Pythias, the State convention of Pythian Sisters, and the annual encampment of the Uniform Rank. In honor of the visitors the business streets of Greeley are profusely decorated with flags and emblems.

## NEW COTTON CROP

There are on exhibition in the Journal office window some excellent samples of this year's cotton crop grown on the farm of Dr. Howard Durley near Love, Miss., and brought to Jacksonville by Miss Grace L. McCarty on her recent return from a visit in the south.

## FROM THE EDUCATOR'S NOTEBOOK.

Wo Sing, a wealthy San Francisco laundryman, is erecting wholly at his personal expense a schoolhouse in which a Chinese instructor will be employed to teach Chinese children—and those American children who may desire—the Asiatic language and lore of his fathers. It will be a night school so that the children may during the day attend the public city schools without interference with their practical American education.

One of the most interesting among the many young Orientals of high degree who will flock in greater and greater number to America for education and will this fall enter an American college is Prince Songlia, a youthful member of the Siamese royal family, now on the Pacific on his way to the United States. The prince sailed lately from Honolulu, accompanied by the Siamese minister of Foreign affairs and a retinue of secretaries and servants. He has not yet decided what American school he will honor with his patronage.

The chance to "practice your French," along with the degustation of a good dinner will soon be denied you if the International Stewards' Association carries off its intention, declared at a recent convention, of doing away with the rather senseless fashion of printing menus in French. The stewards have declared their independence of "a la" and other foreign tyrants of the menu card, and food lists understandable to the common mortal, with a strict avoidance of all mysterious nomenclature, will soon become the welcome rule.

The announcement that 809 students are working their way through Yale, engaging in such occupations as mosquito extermination, rat catching, tutoring and so forth, will cause some astonishment among the many persons who regard Yale as a "rich man's university." As a matter of fact, the percentage of rich men's sons among the students come from families of rather small income.

The annual conference of Chinese students in Eastern colleges will open Thursday of this week at Andover, Mass., with Dr. Wellington Foo, Chinese ambassador at Washington among the guests of honor. There are more than 1200 Chinese students in the United States, and conferences similar to the one at Andover are held in other sections of the country at this time.

As delegates from forty-two states complete their plans for attending the Negro National Education Congress, to be held in Washington, D. C., from August 23 to 26, it is gratifying to observe the plan of campaign urged by the officials of the congress, who are especially insistent that the convention should be free from "bitter and intemperate resolutions directed against real or imaginary enemies of the race and from 'burning' denunciations hurled at those who are supposed to be unfriendly to the negro." These unthinking outbursts, as the officials themselves remark, have often been too much in evidence at negro conventions, and the congress wishes above all things to avoid them as taking up valuable time which may be better employed for the development of a constructive negro policy and the establishment of better relations with the white race.

The latest educational innovation on record is the provision of a course of training for janitors in the Iowa State Agricultural college. The course will be given in a number of cities in the form of extension work. It is planned primarily for public school janitors but any other janitors are eligible. Instruction will include the operation of heating plants of various types, different systems of ventilation and the most efficient methods of cleaning. The courses will be given in the larger school buildings of the cities selected for the experiment and will extend over twenty weeks.

Think of buying a splendid, durable carpet sweeper at such a ridiculously low price. The "Hygeno" Sweeper is made of steel, light in weight but strong—a sanitary sweeper which harbors no germs. "Hygeno" Sweepers are handsome, having beautiful mahogany baked enamel finish and nickel trimming.

It's a might good sweeper—better than the old-fashioned kind—sanitary, light weight, easy running and handsomely finished. The big Hygeno factory could not have furnished them so cheaply except for the fact that the output is several thousand per day, thus bringing the cost of production way down. Let us emphasize the fact that this is an advertising—not a money-making—proposition.

#### QUESTIONS ON THE SUNDAY SCHOOL LESSON. By Rev. T. S. Linscott, D. D.

August 27, 1916.

"Journeying to Jerusalem." Acts 20:16-38.

Golden Text: I commend you to God, and to the world of his grace. Acts 20:32.

1. Verse 16. As a geographical exercise look up on the map the places mentioned in verses 13 to 17 and say where they are situated.

2. Verses 17-21. Paul here opens his heart, and gives his personal experience without any of the art of the orator; would it be more Christian, and more practical or not, and why, if modern preachers would constantly give their experience in their sermons thus furnishing concrete examples of the power of the Gospel?

3. What would be the result if pastors would still preach the Gospel from house to house in addition to preaching it publicly? (This is one of the questions which may be answered in writing by the members of the club.)

### COURT SUSTAINS DECISIONS OF UTILITIES COMMISSION

Great Majority of Decisions Are In Favor of Commission—But Few Cases Have Been Appealed—Decide Telephones a Public Utility.

The Illinois State Register of Springfield makes the following statement in regard to the Public Utilities Commission:

Appeals from decisions of the Illinois Public Utilities commission have resulted, in the majority of cases, in victory for the commission. Since the creation of the commission, only thirteen cases have been reviewed by the supreme court. Nine of these were affirmed and only four reversed. Of the four reversed, two involved orders of the Railroad and Warehouse commission, the predecessor of the utilities commission.

Enough cases, however, have been appealed to fix certain questions heretofore not entirely clear. One of the very first problems which the new commission had to contend with was "What is a public utility?"

In none of the cases thus far reaching the supreme court is there such a full discussion of this question as in the case of the State Public Utilities Commission vs. Monarch Refrigerating company, 267 Ill. 528.

In that case it was shown that long before the passage of the public utilities act, the corporation defendant was operating a general warehouse and cold storage plant for storing fruits, vegetables, food and dairy products for producers and shippers who sometimes disposed of the ownership of these goods while they were in transit, or as goods were stored and held until there was a market demand for them.

There being no express provision in the statute covering warehouses, or a business of this kind, it was strongly contended that the only warehouse that came within the meaning of the act was a warehouse for the storage of grain. In affirming the order of the commission holding to the contrary, the supreme court said:

#### Court Gives Opinion.

"Whether a given business, industry or service rendered is a public utility depends not upon legislative definition, but upon the particular facts and circumstance in each case. It is the nature of the business rendered—its public character—that makes its regulation a matter of public consequence or concern, because it affects the whole community—that stamps it with such a public interest that it is properly subject to legislative supervision and control."

"The legislative declaration that a certain business shall be deemed a public utility would not make it such, if, in fact, the business as conducted is not impressed with a public use or carried on for the public benefit."

"The act does not create but only regulates existing public utilities." Its warehouse and storage plant are not conducted or operated for the purpose of storing and preserving goods of merchandise purchased and owned by it, but on the contrary, is devoted to receiving, storing and preserving goods or merchandise generally for the public or for all who may see fit to use its plant, to the full extent of its capacity. We infer that without this public patronage appellant could not maintain or operate its plant profitably, and to the extent that it has held itself out as public warehouseman and has impressed its business with a public use it is subject to legislative control as to rates of storage and other matters within the limitation prescribed by the constitution."

This decision settled in the affirmative the troublesome question as to whether such warehouses were public utilities.

**Telephone a Public Utility.**  
In State Public Utilities Commission vs. Noble Mutual Telephone company, 268 Ill. 411, it was decided that a telephone company organized on the mutual plan and not for profit, which operated a telephone exchange under an ordinance making it obligatory upon the company to render service to all the residents of the village, except to members of commercial telephone companies and which rendered service only to its members at cost, is a public utility within the meaning of the public utility act.

On the other hand, it was decided in State Public Utilities vs. Bethany Mutual Telephone Association, 270 Ill. 183, that a telephone company which is organized under its charter to engage in public service or to devote its property to public use it not a public utility nor within the jurisdiction of the state public utilities commission.

Other decisions of the supreme court have upheld the right of the commission to exercise power over grade crossings, regulate the crossing of the tracks of one railroad by another, extension of lines, fixing of rates, and holding public hearings.

## SUR-FISES ARE PLENU AT CLEVELAND GRAND CIRCUIT ACES

Outsiders and "Dark Horses" Get Their Share of the Glory—Lee Axworthy Tries Exhibition Mile in 2:00 1-4, Breaking World's Record for Stallions

Cleveland, Ohio, Aug. 22.—While two favorites were winners today in the Grand Circuit races at North Randall, surprises were plenty and "dark horses" getting their share of the glory. In addition to some exceptionally fast racing the crowd was thrilled when Lee Axworthy trotted an exhibition mile in 2:00 1-4 breaking the world's record for stallions, by three quarters of a second. The record of 2:01 was held by The Harvester.

Charley Valentine and Sister Strong gave the talent a bumping in the 2:18 trot, Sister Strong winning the race in handy fashion.

Diameter, the favorite in the 2:12 pace, had little trouble in winning. In the Glenville three year old trot, Harrods Creek, a Kentucky horse and the favorite, made the mile in two straight heats, Maple Tree giving the Creek some hot competition right up to the wire.

The 2:05 pace was heretofore contested from start to finish, it requiring four heats to determine the winner, Fay Richmond gaining that honor.

Judge Ormonde, the favorite won the opening mile but after that was unable to get in front.

**"I DON'T SUFFER  
ANY MORE"**

**"Feel Like a New Person,"  
says Mrs. Hamilton.**

New Castle, Ind.—"From the time  
I was eleven years old until I was seven-

teen I suffered each month so I had to be in bed. I had headache, backache and such pains I would cramp double every month. I did not know what it was to be easy a minute. My health was all run down and the doctors did not do me any good. A neighbor told my mother about Lydia E. Pinkham's Vegetable Compound and I took it, and now I feel like a new person. I don't suffer any more and I am regular every month."—Mrs. HAZEL HAMILTON, 822 South 15th St.

When a remedy has lived for forty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their health to it, is it not reasonable to believe that it is an article of great merit?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Frank O. Lowden will be nominated as the Republican candidate for governor in the primary election to be held in Illinois, Wednesday, September 13.

Sentiment in every part of the state demonstrates it. It is confidently predicted he will have a larger vote

ciples and his ideals are in the invigorating atmosphere.

Made Friends By

While a candidate for the now famous deadlock of 1904 and defeated nomination, he made hundreds throughout the state circumstances and with many way in which he situation, he established social friendship with the state than has been any other man in Illinois in years. Col. Lowden's his disappointment to in the full performance of the nominees. He was hardest workers in the c the success of the party.

A Worker in Every C

In every campaign since given valuable service filled every speaking asked of him. The people as a worker, not a self-course has brought to him ship and admiration of the Republicans throughout the today, believing Col. Lowden earned the nomination for they are for him.

Active in Public Aff

Col. Lowden is a man of advanced thought. His ex-public affairs has not been service in the restricted op of a state legislature nor of appointive office. He has all offers of this sort. He his district in congress and an enviable record that has impress upon legislation a day of benefit to the people nation.

Principle Above Offi

Big, brainy, high princ scholarly gentleman that he conducting a campaign free tacks upon other candida membership there is an el November, as well as a prim tination in September, he is ing the people for support u issues, mudslinging or a disc other candidates. He is poi the burdens of conditions in and telling the remedies he ply to give the highest effe government in Illinois for th cost to the taxpayers.

Every Republican in Illin support and vote for Frank den for Governor on that ki platform.

## LITERBERRY

We had the pleasure, on Thursday, of attending the M. P. chicken fry at Concord, where we were well cared for. There was everything to eat, and the fish and chicken were done to a turn, with all the trimmings. Our table was presided over by Mrs. James Gaddis and Miss Della Goodpasture, and they kept us well supplied with the best in the world. They certainly know how to treat their friends at a chicken fry dinner. We met our former pastor and wife, Rev. and Mrs. J. G. Reed, of Clinton, which paid us for the trouble of going to the fry. We also met our Turley friends from Monroe and our Willard friends from Markham, and many other dear friends we had not met for years.

## CONCORD

Mr. and Mrs. H. F. Becker spent few days in Springfield where Mrs. Becker consulted a specialist in regard to a goitre.

Mrs. W. H. Meier and daughters, Lois, Florence and Dorothy of Farmington, Mass., visited Mrs. Mollie Morrison and family a few days. Mrs. Meier is a sister of Mrs. Morrison.

Mr. and Mrs. Fred Becker spent Friday in Chicago.

Miss Lillian Stroh of Kilbane is a guest at the home of S. M. Henderson.

A party of six went to Jacksonville Sunday to the chautauqua. Donald Henderson, Clark Caldwell, H. Wester, Elsie Gray, Irene Valentine and Miriam Henderson made up the party.

Mr. and Mrs. Roy Abernathy took dinner Sunday with Mr. and Mrs. C. O. Bayless.

W. C. Brockhouse drove to Meredosia in his car on Saturday.

C. Z. Roach, who died at the home of his daughter, Mrs. Fred Henderson, was an old time correspondent of the Jacksonville papers. His death came as a shock to the community, although it was known that he was in rather poor health.

Miss Lola Baker returned Saturday to her home in Versailles after a pleasant visit with Miss Ethyl Plank.

Mr. and Mrs. Albert Knoeppel, Mr. and Mrs. John Drake, Miss Alma Brockhouse and Clyde Taylor took dinner with Mr. and Mrs. Earl White on Sunday.

Settle the "What to eat question" these warm days with Uneeda Biscuit—the crisp, perfectly baked soda cracker. Eat them at any time, in any way, with anything. All grocers.

# What I Would Do As Governor

## I. LEGISLATION

If nominated and elected governor, I will use all the legitimate power of that office, including appeal to public opinion, to promote forward-looking legislation for progress in human welfare, for social and industrial justice, and for having our state do its part in the cause of "America prepared and America efficient."

In efforts to secure practical results in legislation I shall apply to each situation the fruits of my ten years' experience in the state legislature—eight years as a member of the House and two years as a member of the Senate.

To promote the basic prosperity of all the people and in view of the fact that food comes from the soil, I favor legislation that will foster the increase in soil fertility throughout the state, particularly through the development of the agricultural college at the State University and the Farmers' Institute, through which scientific information on agriculture and home-making is disseminated.

To protect women and children engaged in industrial and commercial pursuits, I favor legislation, based upon an accurate knowledge of the facts regarding conditions in the various classes of industry, for shortening the working hours for women and for extending the period of years during which children shall be kept in attendance at school.

I favor legislation for increase in vocational training—industrial and agricultural education—both during the regular school period and through continuation schools for youths and adults who have passed that period.

I favor the general proposition that all men and women who work for wages should have one day of rest in seven.

I favor legislation to promote the health, comfort and general welfare of all who labor.

To further the cause of increasing human efficiency and the cause of home rule, I favor the enactment of a county local option law.

I favor legislation to restore to the City of Chicago home rule in the regulation of public utilities in that city.

To protect our elections from abuse and to prevent corruption, I favor the passage of an effective corrupt practices act.

To reduce the scope of the spoils system I favor legislation to extend the existing state civil service law, and also the enactment of a comprehensive Cook County Civil Service law.

To reduce the cost of government I favor legislation for the consolidation of overlapping commissions and offices and the creation of an effective budget system.

To bring about complete woman's suffrage, the short ballot, home rule for Chicago in local affairs, and progress in reference to the fundamental law of our state, I favor the calling of a constitutional convention.

## II. ADMINISTRATION

In general, if nominated and elected governor I will fulfill the duties of the office in the interests of the whole people, and not with a bias for any special local interest.

I will be the governor of no faction, no city, or no section, but the governor of the whole people of the state of Illinois.

I will select for the appointive offices only honest, efficient men, in sympathy with the laws they are charged to enforce. I have made no patronage promises.

I will strive to cut down the cost of government, to eliminate waste and graft and to carry on the fiscal affairs of the state with the same close attention to modern business methods that I would follow in my private business. (Signed)

*Morton D. Hull*

## Work and Vote for Hull

Tell men you meet about Hull and his 10-year record. How he led the long fight that brought Direct Primaries and Civil Service to Illinois. His work for Labor—for Shorter Hours for Women—for the Workmen's Compensation Act—for Insurance Safeguards—for the Anti-Graft Law—for regenerating State Institutions—for the Pure Food Laws—for ending gag rule—for Anti-Loan Shark Laws—for a survey of Pension Legislation—for better Legislative Methods—for Efficiency in State Management—these are only a few of the many constructive acts which Senator Hull fostered.

Illinois needs him to carry the task of Good Government forward. Send us your name and address today. We'll tell you how you can help win with Hull.

## Laboratory-Milled ZEPHYR FLOUR

—is the surest escape from annoying baking trouble.

We grocers seldom know—and the consumer never knows—just how a non-laboratory milled flour will bake.

A laboratory-milled flour is made only from wheat that a chemical analysis shows conforms to a certain fixed standard. Wheat whose gluten and starches are identical in every grain. Wheat from different fields differs in food and mineral composition as widely as milk from different cows differs in richness. That is why it is so necessary to investigate the heart of wheat instead of grinding grain that looks the same.

It is this variation in wheat which gives you trouble in baking—makes different sacks of some flours bake differently.

Only wheat containing precisely identical proportions of food elements will make flour whose baking behavior cannot possibly vary from sack to sack. That is why

## ZEPHYR FLOUR

milled under laboratory supervision is always uniform, always dependable. Convince yourself by testing a sack at our risk.

## SOLDIERS AND SETTLERS ENJOY SPECIAL DAY

TUESDAY IS RED LETTER DAY  
AT CHAUTAUQUA GROUNDS

Bishop Fallows Gives Strong Address  
in Afternoon—Hugh S. Magill  
Speaks of Centennial—The Roster  
of Veterans.

Tuesday will go down in the history of the Jacksonville chautauqua as one of the most successful and enjoyable parts of the ten day series. It was given up largely to the veterans and old soldiers of the county and while not so many of them were in attendance as of the younger all fully entered into the spirit of the day and enjoyed it to the utmost. The grey haired veterans shook each other's hands most heartily and talked over days when shot and shell were flying down in Dixie. Old settlers touched elbows and greeted each other cordially and elderly ladies smiled as they received the compliments to which they were so well entitled.

Bishop Fallows was welcome in every sense and his presence was an inspiration to all. Capt. Wright was present and furnished excellent music. The dinner supplied for the veterans was much enjoyed. Too much cannot be said in favor of the White Hussars and the musical program given by them was of the best. The talk by Prof. Hugh S. Magill on the coming celebration of Illinois centennial proved at once entertaining and instructive. The day was brought to a close by a splendid electrical entertainment by Prof. Louis Williams and followed by the popular moving pictures of T. S. Scott.

### The Morning Program

There was no set program for the morning but there was good sized audience in the large tent at 10:30 o'clock ready to enjoy whatever had been prepared for them. Platform manager Dial introduced Frank J. Heini who very fittingly acted as chairman and the honor was well due him for no one has worked harder to make the whole affair in general and yesterday in particular a success.

With a few words of complimentary greeting to the veterans and old people Mr. Heini first asked Bishop Fallows to offer a few remarks. The gentleman said briefly: "They call us veterans but don't think we are old men for we are yet right lively. I greet the early settlers who did so much to prepare the land for the march of civilization and I greet the veterans who fought to preserve it, their hearts are young and strong today."

Captain Wright and W. S. Lurton then sang with their usual acceptance and the ability an old time selection, "Deliverance has come." On such occasions these gentlemen are especially welcome and yesterday they did admirably, pleasing every one who heard them.

Major C. E. McDougall spoke next. "This is a good combination, veterans and old settlers. This is the garden spot of the world and there are many who have helped develop it but I cannot mention all the names. W. T. Beckman of Menard county improvised the first corn planter I ever saw; he was visited by a manufacturer who took his idea and the Brown corn planter was given to the world. I well remember the old mill at Salem where Lincoln arrived without friends. He and W. G. Green were clerks in a store and Green helped his fellow clerk in the study of grammar. The singers next gave "O Heaven," after which W. H. Jordan spoke briefly. His grandfather was in the revolutionary war, his father in the Mexican war and he and several brothers were in the war of the rebellion. Mr. Jordan told of primitive times, the old mill where the owner was strictly impartial and served each in his turn.

"Tenting tonight" was next sung and then Ensley Moore, undoubtedly the best posted historian of the county, was introduced. He said Mr. Jordan was the grandson of the man who first started a Methodist church in the county. The people all should cordially greet the veterans and old settlers who had done so much for the welfare of succeeding generations. He was proud to be able to call such a man as Joshua Moore father.

S. W. Nichols was the next speaker and after him came the distribution of prize spoons.

### Some Old Veterans

The oldest veteran present was J. O. Hamilton, 87 years. He was born in Kentucky and came here in 1834; the youngest was Ezra Scott, 67 years, enlisted when 15 years of age. The oldest woman born in Morgan county was Mrs. Charles McDougall, 83 years. When her name was called, James O. Hamilton asked the privilege of shaking hands with her as they were schoolmates. The longest continuous resident of the county was Mrs. Sharp, 83 years. The longest resident veteran of the county was J. M. Barber who was born in a house belonging to Snoddy Henderson and standing where is now the north end of the opera house. A couple whose combined ages were the greatest were Mr. and Mrs. M. V. Wyatt, 156. There was a misunderstanding regarding the award to the woman not born in Morgan county and here the most years by mistake it was claimed by a lady who

declined to keep the spoon so long when Charles Saunders, aged 82, and his wife 87 appeared, while not strictly entitled to a prize as they were not present when the spoons were awarded, the spoon was given them as they would have won it present. J. O. Hamilton also took the spoon awarded the oldest one present.

### Relics of Early Days.

Mrs. Sharp exhibited a quilt of the sugar loaf pattern and made 65 years ago and Veerini Daniels showed a silver plated shoe buckle his grandfather wore when serving in the revolution with Gen. Washington. The audience then adjourned for dinner and as last year the ladies of the relief corps with the assistance of some others spread under the trees a superb dinner for the veterans and by the way the old boys ate and complimented the good things as a fine compliment to the ladies. Bishop Fallows asked the blessing and sat at the head of the table.

After dinner Platform Manager Dial introduced the White Hussars, who most acceptably entertained the great audience with a varied program. These talented gentlemen supply music to suit the classical and those with popular taste. They offer dialogue and recitation, humor, our without buffoonery. Their performance was fully up to the high class of attraction furnished by the management thruout.

### The Bishop's Address.

Bishop Fallows was then introduced and made a noble address worthy of the occasion. It was a patriotic speech and was well worth hearing. He said in brief, "The twentieth century is Woman's Century and the evolution of the human race is the evolution of woman. A young bride once asked an eminent authority how to hold her husband always near and devoted to her and the reply was 'Feed the brute.' Lincoln said that all the good things said about woman fail to do her justice, I specially her conduct during the war. There are no old women. Their hearts grow younger with their years. These veterans before me have given the land a true conception of patriotism. The complete reconciliation between the north and south is the miracle of the world."

In the Civil war there were 1,300,000 soldiers whose ages averaged eighteen years and the average age of the heroes of Gettysburg was but 18 years. No general of ancient or modern times ever excelled and few ever equalled General Grant. The treatment of southern prisoners by the north was magnanimous and to the memory of those who died in prison at Chicago a monument was erected and at its dedication men illustrious in the annals of the Confederacy took part. That was the beginning of a better era which was completed in the Cuban war when Fitzhugh Lee and Joseph Wheeler were commissioned by the country to take important commands. Gen. Lee was astonished to find himself styled a Yankee when he reached Cuba but so were all from the United States regarded there.

In East India, a Yankee is defined as an American who makes his living by stealing. Well, I guess it wouldn't be quite safe to ask us old fellows too closely about that but boys, we couldn't help it. Sweet potatoes would cling to us and other things good to eat but we truly never took anything we couldn't reach."

### Our Isolation Ended.

We cannot live an isolated nation. We took the Philippines and I have traveled them from one end to the other and have seen what mighty things our land has done for them and we cannot abandon them to independence and do right until the youth now being educated are able to take the reins of government and then they should be an integral part of the nation. God gave us a trust there and the flag must not be pulled down.

Our land should have a true spirit of preparedness. A militant spirit should be in all men but that doesn't mean that we are to be a military nation seeking war. Every one capable of bearing arms should have in him the true spirit of patriotism and loyalty, trained to military duty so that if our country should be attacked we shall not have to depend on an awkward squad but that by no means a spirit of militarism which is far different. Our schools are the great melting pot in which we fuse the many nationalities sent to this land and they should be carefully fostered. God help us to be prepared in soul and body for all exigencies and keep alive the true spirit of patriotism in the breast of every one.

The eloquent speaker was frequently interrupted with hearty applause and it long continued at the close of his address.

By request Capt. Wright and Mr. Lurton sang, "Oh Israel" and "Marching thru Georgia," the audience joining in the chorus.

### Hon. Hugh S. Magill.

Hugh S. Magill made a fine address on the preparing for the cele-

bration of our state. He said as two years distant but there is none too much time for preparation. The committee and those having the matter especially in hand want a grand celebration at Springfield; and a country wide celebration in each county. It is the intention to have a three volume history of the state, historic markings, a statue of Abraham Lincoln and one of Judge Douglas. The model for the one of Lincoln has been accepted by the committee. It is by an American sculptor, O'Connor and is fine.

GOOD ROADS PROGRAM  
AT CHAUTAUQUA TODAY

EVENTS WILL BEGIN AT 1  
O'CLOCK WITH AUTO PARADE

Road Betterment Will Have Place  
on Afternoon Program—All Well  
Pleased With White Hussars—  
Tuesday Evening Events.

## GOOD ROADS DAY

Afternoon  
1:00—Automobile Parade.  
2:00—Concert—White Hussars Band.  
2:45—Road Address—B. H. Piepmeyer of Illinois highway department.  
3:15—Lecture—James A. Burns (Burns of the Mountains).  
Evening  
7:45—Grand Concert—White Hussars Band.  
Moving Pictures—T. S. Scott.

This is good roads day at the Jacksonville chautauqua and with predictions for weather, fair and continued cool, indications for a successful program could hardly be better. After the automobile parade which will begin at 1 o'clock, and which is mentioned more fully elsewhere, there will be a concert by the White Hussars band followed by a special good roads day address by B. H. Piepmeyer of Illinois highway department. After this will come the address by "Burns of the Mountains" a man who has always something to say and who never fails to please. Mr. Burns is from the mountain feud districts of eastern Kentucky and is a speaker of dramatic power.

Persons who fail to enjoy the White Hussars band today will be missing a treat of unusual merit. The organization is unique in many respects. In the way of music it is very superior, supplying vocal and instrumental numbers of a wide variety.

Then too the young men are fine elocutionists and give numbers in that line that are of high merit. Recitations, humorous and otherwise are a feature of their program and it is so varied that intense interest is maintained throughout.

## Tuesday Evening.

For the evening program Tuesday the great tent was packed to its utmost capacity and many were standing while others were unable to get in. Again the White Hussars band appeared with a splendid repertoire which was highly entertaining in every way.

Prof. Louis Williams then took the stage with his wonderful entertainment and for a considerable time pleased and mystified his audience. Noxious gas was dipped with a small cup from a glass jar. He showed by a simple experiment, the great value of pure air by inserting a lighted stick in a jar full of pure air, permitting the flame to continue, then filling the jar with breath from the lungs and extinguishing light.

With liquefied air he froze mercury so that it would drive a nail and he scattered about the audience pieces of his charged liquefied air so cold that it would freeze the hand that held it.

Various electrical experiments were made, wireless telegraphy explained and many other instructive and remarkable things were done. Thos. Scott's pictures completed the program.

## Chautauqua Notes.

John Barber, one of the veterans is blind, but is carefully cared for by his son. He was born where is now the north end of the opera house.

Charles Sanders was the oldest veteran and settler Tuesday on the grounds, 91 years of age. He was born in Lowden county, Virginia.

Mrs. Charles Sanders was born in England. Her name was Hannah Eagle and they were married May 21st, 1855 by Rev. John M. Lane.

J. W. Priest of the Courier, had a very pleasant interview with Bishop Fallows. Mr. Priest is an alumnus of Illinois Wesleyan and there was a bond of sympathy between them.

F. M. Coard, J. O. Hamilton, J. A. Hamilton and Michael Sanderson were wide awake during the campaign of 1860 and sang many songs for Lincoln and shook hands with him on the doorsteps of his house. During the great rally of Aug. 8, 1860, there were at Springfield and stood near Lincoln as he mounted the platform. He uttered the memorable words that it was not the man but the principles the people wanted.

The crowd surged so toward the stand that it was in danger of being pushed down and Lincoln was removed, put on a horse and taken to a place of safety.

The street car service is quite good and deserves commendation. Cars have been brought in from other cities and every effort is made to handle the throngs satisfactorily. Of course the cars are crowded at certain times but there is no just cause for complaint.

The crowds at night are well handled as they leave the grounds. Police are stationed a little way south of the bridge and for a while autos and rigs have the right of way while foot passengers are held back; then the rigs are stopped and people cross the drive in safety. In general the order seems good and affairs on the ground are well handled.

The management wisely decided that there was enough for today without trying anything special in

the morning so all will have a rest till the auto parade and then business will begin and keep on in good shape till the close in the evening.

The change in the weather was most acceptable and aided every one to enjoy the program in comfort.

## FUNERALS

## Roach

Funeral services for Charles Z. Roach were held at 2 o'clock Wednesday afternoon at the Concord M. P. church, the Rev. J. G. Reid officiating. He was assisted by Rev. A. E. Fairchild of the Concord M. P. church. Rev. Mr. Reid is a former pastor of the church and was a close friend of Mr. Roach. He is now pastor of the M. P. church of Clinton Ill. During the services a quartet consisting of Mrs. Edgar Cooper, Miss Alma Bederling, Spencer Smith and Roy Abernathy, with Mrs. C. W. Murphy as pianist, sang appropriate selections. They gave "Beautiful Isle of Somewhere," "Sometime We'll Understand" and "Yes Jesus Cares."

At the grave they sang "The Years are Rolling On." The many beautiful floral offerings were cared for by Mrs. Howard Rentschler, Mrs. Daniel Dietrich, Mrs. Elmer Henderson, Miss Esther Dietrich and Miss Irene Valentine. The bearers were George Dietrich, George Friedlander and Mathew Miller of Jacksonville, Silas Rentschler, Frank S. Rentschler and Harold Rentschler.

Following the services at the church the party motored to the Concord cemetery where impressive services were held and interment was made.

Out of town relatives at the funeral were C. E. Roach and family of Springfield, Mr. and Mrs. Ralph Roach of St. Louis, Mr. and Mrs. Major Valentine of Ashland, Kas., Mr. and Mrs. Harpin of Bluffs and Mrs. Hettie Brainer of Jacksonville.

## McCarthy

LANSLING ANNOUNCES AMERICAN  
MEMBERS OF JOINT COMMISSION

Arrangements for Meeting With Mexican Commission Will be Made Immediately.

Washington, Aug. 22.—Secretary Lansing announced tonight that the American members of the joint commission to undertake settlement of differences between the United States and Mexico would be Franklin K. Lane, secretary of the interior, Judge George Gray of Wilmington, Del., and Dr. John R. Mott, of New York City.

All of the commissioners have accepted their appointments, the Mexican members were named some time ago and arrangements for their meeting will be made immediately by Secretary Lansing and Eliseo Arredondo, General Carranza's ambassador-designate.

Virtually the only question to be decided is where the sessions shall be held. The Mexicans are understood to prefer some resort on the New Jersey coast. Secretary Lane who will head the American group was the first member selected. Judge Gray a retired federal judge and a former United States senator has had much experience on international bodies and since 1900 has been a member of the international permanent court of arbitration under The Hague convention. Dr. Mott is general secretary of the International committee of the Young Men's Christian Association and author of numerous religious works. He was offered the post of minister to China by President Wilson but declined it.

### BIG AUTOMOBILE PARADE

WILL TAKE PLACE TODAY

New Line of March Announced—Many Owners Have Decorated Cars.

A number of automobile owners were engaged yesterday in decorating their cars and indications are good for an automobile parade of record breaking size this afternoon. The parade will start promptly at 1 o'clock from Illinois college. The judges will be out of town people whose names will not be announced and they will be stationed at various points along the line of march. Chief of Police George P. Davis and the city commissioners will head the parade. The judges will come to their decisions as soon as possible after the parade reaches the chautauqua grounds and the prizes will be awarded at once. Only decorated cars will be admitted to the grounds free of charge. Some little change has been made in the line of march previously announced and the route of the parade will thus be as follows: east from Illinois college campus on College avenue to Church street; north to West State street; east around the north side of the square to the postoffice; west on West State street to Church street via the south side of the square; south on Church street to Morton avenue; east on Morton avenue to South Main street; south on Main street to Michigan avenue; east to Hardin avenue and south to the chautauqua grounds. T. H. Buckthorpe will be marshal of the day and will have charge of the parade. The lucky numbers for the drawing will be handed out at the turning post on the west side of the square as the parade returns. Following is the method of formation for the various classes:

Class A cars will form on West College avenue north of Illinois college headed east.

Class B will form on Mound avenue south of Illinois College headed east.

Class C will form on Grove street headed west.

Class D (motorcycles) will form on Park street just north of College avenue.

All other cars will form on Diamond street south of College avenue headed north. All cars, whether decorated or not, will be welcome in the parade, tho the undecorated cars will fall into line behind the decorated cars.

Class A cars will consist of local cars individually owned; class B cars will be out of town cars; Class C will be cars owned or designed by lodges, business houses, or other organizations, and class D will be the motorcycles.

### PROHIBITION CANDIDATE

PAYS VISIT TO CITY

Rev. Ira E. Landrith of Nashville, Tenn., was in the city for a time Tuesday and called upon Rev. Walter E. Spoons, with whom he became acquainted in Texas a number of years ago. Rev. Mr. Landrith is a candidate for the vice presidency of the United States on the Prohibition ticket. He is now engaged on the Lincoln chautauqua circuit and was on his way from Virginia to Waverly. J. Frank Hanly of Indiana is the Prohibition candidate for president and he and Rev. Mr. Landrith expect to start September 8 on a campaign tour of sixty days. They will make the trip by special train and will visit all parts of the union. The party will probably visit Jacksonville, according to a statement by Mr. Landrith Tuesday.

### ATTENDED FUNERAL

Mrs. Charles Rafferty, 296 South Johnson street, has returned from Kansas City where she went to attend the funeral of her nephew, Joseph Francis Wright.

### ILLINOIS ITEMS

**Farmer Cuts Right Leg**—Homer Coleman, prominent farmer near Beardstown, is suffering from a severely lacerated right leg, which he suffered Saturday while working with a corn knife. Although the gash is about four inches in length it penetrated the flesh to the bone, just above the knee and makes a painful and slow healing wound.

**Pioneer Landowner Dies**—L. K. Scroggin, 89 years old, banker and millionaire landowner of Mount Pulaski, died Saturday night after a year's illness. A few months ago he gave to each of his living children and the heirs of those dead \$20,000 each. He had lived all his life in Illinois, having been born January 25, 1819, less than sixty days after the state was admitted to the Union. He had lived on his home farm, two miles south of Mount Pulaski for eighty-nine years. His widow and eight children survive him.

**Loses Legs and One Arm**—Eugene Perryman, aged 25, of Shelbyville, was injured while trying to catch a freight train on the Big Four today. Both legs and one arm were severed. His brother, Ernest Perryman, was killed by a train at Shelbyville two weeks ago.

**Practiced Medicine Fifty Years**—Dr. John J. Pyke, finished fifty years' practice at Odin Sunday and citizens presented him with a loving cup. The presentation speech was made by Dr. F. D. Secor.

**Miner Killed by Train**—Tony Jaynick, a miner, 38 years old, was killed by an Illinois Central freight between Benton and Christopher Monday afternoon. Jaynick had just come out of the mine.

**Infantile Paralysis at Pekin**—A case of infantile paralysis was discovered in Pekin Monday afternoon when specialists, at the solicitation of the board of health examined Robert Adams, son of Robert Adams, 306 McLean street. While the case is not in malignant form, a rigid quarantine has been established, although the health officer does not feel that there is any occasion for alarm.

**Electro Pure Water, 5 gallons for 20c. Ask your physician.**

### RECORD PRICES PAID FOR HOGS

The advance in the hog market which set in last week has continued, as values were 20 to 25 cents higher yesterday than the close of last week and higher than has ever been known on the St. Louis, Peoria and Chicago markets.

In Peoria the high mark was reached when a consignment of medium butchers was sold at \$11.10. The demand there was good and the market active.

In St. Louis on March 28, 1916, the top of the hog market was \$11.05 and the bulk went at \$10.85 to \$11.05. On that date a small supply was received for the market and this was the cause for the big advance made. The close was firm and the buyers still anxious for hogs. Yesterday, however, at the National Yards, this record price was shattered when the top for heavy hogs was \$11.30 with receipts 11,300. The bulk went at \$11.00 to \$11.20.

In Chicago light hogs topped the day at \$11.30, with the bulk at \$11.15 to \$11.15. Receipts there were 11,000. This broke the high mark in the Union Stock Yards made in March, 1916, of \$11.20.

Hogs will continue to climb, from every indication, especially if the principal markets continue to receive light shipments. There is no way of telling where the rise will stop. The market will be watched with a great deal of interest by city folk as well as farmers.

Ernest Strawn of Alexander is attending to the Tractor Demonstration held in Bloomington this week.

### VERDICT OF ACCIDENTAL DROWNING RETURNED IN McCARTY CASE

Several Circumstances Point to Suicide, Tho Inquest Confirms Theory of Death from Accidental Cause.

An inquest over the body of Joseph McCarty who was found drowned in Morgan lake Monday was held at the Reynolds undertaking parlors Tuesday morning at 9 o'clock. The jury was composed of James Trahey foreman, Charles Fanning, M. J. Crowe, Pat Shanahan, James Montgomery and James W. Scott clerk.

The testimony of George L. Brennan, Shelby E. Sargent, Terrence J. Brennan and Dr. G. F. Dinsmore was heard. The testimony given was practically the same as already recounted. After hearing the testimony the jury returned a verdict of accidental drowning.

Charles Keehner, who conducts the grocery store on North Main street where young McCarty was employed, asserts that on leaving the store at the close of work Saturday evening the young man seemed to be in his usual spirits and that as far as he knew there was no motive for suicide. It is stated that the young man had now and then engaged in quarrels with his father, however, and this, together with the fact that he had for several years been in ill health, lends some probability to a suicide theory.

The testimony of George Brennan described the finding of the body Monday afternoon, as did that of Shelby E. Sargent. Both testified that the body was fully dressed and that there were apparent no marks of violence of any kind. Terrence Brennan, member of the park board, also gave a full account of the finding of the body, mentioning that identification had been made by Bernard Gause. Dr. Dinsmore reaffirmed the statement that there was visible no sign of violence.

### RETURN FROM AUTO TRIP.

Herbert Schumaker, Luther Brockhouse and Walter Unkin have returned from an automobile trip thru Minnesota. They visited St. Charles and Rochester and on the return trip were joined by Miss Ruby Kempf of St. Charles and Miss Elsie Englewood of Allison, Ia. Their route was thru Rock Island and Dubuque and during the entire trip the only trouble experienced was one puncture. The party travelled thru thirty miles of mud each way. The crops were slightly better in appearance in Iowa than in Illinois or Minnesota. While in Rochester they saw the home of the great Drs. Mayo and said that that city owed much of its present prosperity to these great men. The trip was made in Mr. Schumaker's car.

### LITTLE YORK COMMUNITY CLUB WILL PICNIC.

The second annual picnic of the Little York Community Club will be held Wednesday afternoon, Aug. 20, on the Little York church lawn. During the afternoon contests and speeches will go to make up the program and the feature of the day will be the barbecue supper to be served at 5 o'clock. The speeches will be political ones made by various candidates.

Electro Pure Water, 5 gallons for 20c. Ask your physician.

### FUNERAL NOTICE.

The remains of Charles B. Lewis who died in Pensacola, Fla., arrived in the city on the Alton Tuesday afternoon and were taken to the undertaking parlors of W. W. Gilham. Friends wishing to view the remains may do so at the parlors up to 2:30 o'clock this afternoon. The funeral will be held from State Street Presbyterian church this afternoon at 3 o'clock.

### DEATH OF RUFUS B. HIGBEE

AT DANVILLE, NEW YORK.

Was at One Time Prominent Resident of White Hall and for Some Years Had Lived in St. Louis.

White Hall, Ill., Aug. 22.—The death at Danville, New York, on Aug. 17th, of Rufus B. Higbee removes a member of a former prominent White Hall family. His parents were Samuel and Sarah A. Higbee. The mother survives in the 94th year of her age, and is at present at the home of Mrs. F. H. Fox at Farmer City, Illinois. A few months ago, Mrs. Higbee remarked that it seemed to fall to her lot to survive all the members of her family, and the only survivor is one daughter, Mrs. E. D. Cheney, who was with her brother at the time of his death.

The remains of deceased were brought to St. Louis for burial. He had been ill with Bright's disease for several years. He became a mining promoter after leaving the home of his nativity, White Hall, and operated several large mines in New Mexico and Colorado. He also engaged in several Indian uprisings, and in them he became known as Col. Higbee. He located at St. Louis twenty five years ago, where he has since resided, and is survived by his widow. A nephew, Dr. Edward H. Higbee, resides at 6245 Berlin avenue, St. Louis.

Col. Higbee had been at the eastern resort for some time on account of his health.

### Other White Hall News.

Mr. and Mrs. C. E. Stetson arrived home Monday evening after an absence since July 1st at Sheffield with Mr. Stetson's parents and at Silvis with Dr. D. W. Chapman and family. They made the rounds in their auto, a distance of 187 miles each way.

W. W. Evans received a carload of Dodge cars Tuesday, and all are sold. Black & Johnson received two Overlands Monday from St. Louis, they being driven thru.

Letters for Mrs. Dora Griffin and L. M. Kirkpatrick are on this week's unclaimed list at the White Hall post office.

Lee Deshasier has returned from Detroit, Michigan, because of illness, and expects to return in the fall. He thinks Detroit is the greatest city in the world, and that he made the change in the wrong time of the year for one's health from these parts. He says the change affected more or less all the boys who went there, and that his illness was such that he could not take up labor. He says there is plenty of work in that city, and that the city presents hustling scenes of activity night and day.

### Burlington Traffic Resumed.

Traffic on the K line of the Burlington, west of the Mississippi, was resumed Tuesday, and the service on this division of the Burlington has resumed normal proportions. The washout of the 11th inst. took out seven bridges along that line, and all traffic has been coming this way since that time, taxing the capacity and facilities of this division to its utmost. Extra crews were imported, and every available telegraph operator was pressed into service in opening night offices. From two to three thousand tons were handled in freight trains and yet there were thirty or more trains each twenty-four hours during the rush. On two occasions Harry Lyons was called in to service as fireman on account of men taking ill. The washout was the worst ever experienced on the K line. A washout at the lower end of this division of the Burlington, Wood river, added to the turmoil for several days, trains being detoured over the C. & A. between Brighton and East Alton.

### NOTICE TO WATER CONSUMERS.

Water will be shut off on West State Street from Church Street to Prairie Street, and on Church Street from West State street to Lafayette Avenue; also on Jordan street from Church to Fayette Street, Wednesday morning, August 23rd, 1916, from 8 o'clock until 2 o'clock, to repair hydrants.

JOSHUA VASCONCELLOS, Commissioner Public Property.

### FUNERAL OF JUDGE LACEY HELD TUESDAY AT HAVANA

Last Surviving Member of 1855 Class at Illinois College Laid to Rest.

Funeral services for Judge Lyman Lacey, pioneer lawyer and last member of the Illinois college class of 1855, were held from the family home at Havana Tuesday afternoon at 2 o'clock. The Rev. W. D. McLean of the Morgan Park, Ill., Episcopal church was in charge and burial was made in the Laurel Hill cemetery, at Havana. Judge Lacey died at his home in Havana Sunday after a lingering illness, as has already been mentioned. He was for many years a judge of the circuit court and has often presided in Jacksonville.

Judge Lacey was born May 9, 1832, in Dryden, Four Corners county, N. Y., and moved with his parents to Michigan at the age of four years and after a year's residence in that state coming to Illinois and taking residence near Ipava. He came to Jacksonville in 1852 and entered Illinois college, graduating with the '55 class, and the following year entering the office of Louis Ross of Lewiston for legal study. He was admitted to the bar in 1856, was elected to the lower house of the general assembly in the Democratic ticket in 1862 and in 1873 was elected to the circuit bench.

Mrs. Martin Sullivan has returned after a visit of six weeks in Chicago.
